

MINUTE SHEET

minute taker: Sam Le-Cornu

Project name:					
Date:	02/03/2017	Time:	13:30	Location:	templeman east wing
Attendees:	Max, Sam, Bram and Latifah				

Actions Review

createPersonalDetails() is complete and work has begun on amendPersonalDetails().
Max has begun work on constructing a GUI in the remaining time.

Agenda

1	The purpose of this meeting is to complete the majority of the programming. This will include finishing the amendPersonalDetails()
2	Max is carrying on constructing a GUI for the application. Testing for the functions of the GUI are underway and it will be fully implemented into the application next week. Until then the application will run exclusively via a command line interface.
3	The test document needs to be filled with completed JUnit tests for the end of stage 4.
4
